Automotive **INDUSTRY SERVICES**

Wagner Industrial Electric, Inc. has extensive experience and expertise in providing electrical installation services to automotive manufacturers across North America. Known to many auto builders as one of the preferred performance based installation contractors, WIE provides a variety of customers with safe, quality electrical installations on schedule and within budget. Project complexity ranges from single electric tool install to complete building and process installations.

Our team has the knowledge and skill to manage and execute even the largest and most complicated installations. WIE supplies labor for your projects utilizing IBEW electricians to assure that your project is completed safely, on time with the quality you expect. Whether your project requires manpower of 5 or 500, our experienced and qualified team is capable of mobilizing quickly and efficiently. The WIE team includes:

- Project Managers
- Project Coordinators
- Safety Engineers
- Project Administrators
- Field Engineers
- Site Labor Superintendents

In your competitive manufacturing environment, we understand that product to market is paramount. The Wagner team uses our experience and the latest tools available to assist in integrated project scheduling, manloading, labor and material cost control, quality control and safety assurance tracking. Working closely with owners and other project crafts, WIE can assist in identifying and solving potential issues before they affect project deadlines to assure timely completion of your production facility. WIE offers many delivery methods depending on your needs and requirements, including:

- Design / Build
- Plan Spec
- Design Assist
- Turn Key

Guided by Integrity, Powered by Performance and Committed to Safety, WIE provides the automotive industry a Safe, Quality, Cost Effective electrical installation On Time! Let us show you why our customers consider us the preferred performance electrical contractor in the auto manufacturing industry.
